The Four County
ADAMhs Board

Four County Board of Alcohol, Drug Addiction and Mental Health Services

The Four County ADAMhs Board

The Four County Board of Alcohol, Drug Addiction and Mental Health Services (ADAMhs) of Defiance, Fulton, Henry and Williams Counties was created in 1978 to ensure the availability of community-based alcohol, drug addiction and mental health services. It was established by Ohio statute for the purpose of planning, funding, monitoring and evaluating contracted mental health, alcohol and drug treatment services to our residents. The ADAMhs Board does not directly provide services, but contracts with a network of public and private health care agencies to care for persons in need.

Mission Statement

To ensure the availability of an effective integrated behavioral healthcare system through planning, monitoring, funding and evaluation

Vision Statement

The Four County Alcohol, Drug Addiction and Mental Health Service Board will ensure an innovative, efficient and effective delivery system to address the prevention, treatment, and recovery needs of individuals and families affected by alcohol, drugs, and mental illness.

A Note From The CEO

FY 2026 brought several new initiatives to the Four County area as the Board continued to strengthen the local behavioral health system.

The Board began the Culture of Quality (COQ) certification process, a rigorous, voluntary program evaluating more than 140 standards based on state and federal requirements and best practices. The process reinforces the Board's commitment to quality, transparency, accountability, and responsible stewardship of public funds.

The Board also launched an Adult Mobile Crisis pilot program through OhioGuidestone. The team responds to individuals experiencing mental health or substance use emergencies in homes, workplaces, parks, or other preferred locations. By providing crisis support and connecting individuals to community resources, the program aims to reduce unnecessary law enforcement involvement and emergency room visits.

Upton II, a 10-apartment monitored housing development in Defiance through New Home Development, is nearing completion. The development will provide supportive housing for individuals at risk of homelessness who are recovering from co-occurring mental health and substance use disorders.

Together, these initiatives reflect our commitment to strengthening behavioral health services and improving lives throughout the Four County area.

Sincerely,

Tonie Long, CEO

Four County ADAMhs Board

Operation New Beginnings

Operation New Beginnings is a prevention initiative of the Ohio State Highway Patrol, in partnership with local ADAMHS Boards. The program connects repeat DUI offenders with substance use resources and treatment referrals to help prevent repeat offenses and reduce impaired-driving fatalities. OhioGuidestone assists with outreach and connecting individuals to appropriate support.

Critical Incident Stress Management (CISM)

CISM is a crisis intervention service designed to help individuals cope with the psychological impact of traumatic events. Trained team members respond to critical incidents, process trauma, provide support, and help determine when additional mental health services may be needed. The Four County CISM Team operates under Recovery Services of Northwest Ohio.

4 Your Mental Health and CredibleMind

The Four County ADAMHS Board partnered with the Defiance, Fulton, Henry, and Williams County Health Departments on the 4 Your Mental Health initiative.

Through this partnership, the 4YMH CredibleMind platform provides expert-curated self-care resources, assessments, local mental health resources, and personalized guidance. In FY2026, 6,430 unique users accessed the platform for a total of 8,313 sessions.
